

Summer Reading Bookopoly

Two ways to play! First step, don't lose this paper! Stick it to your fridge!

Simple Rules:

Choose a bookopoly, and start reading! Pick and choose which ones you want to complete! Prize money rewarded when entire bookopoly is completed. Finish as many bookopolies as you can!

Bookopoly Rules:

Players start at GO Square. Roll 2 dice, then move to the indicated square. You can purchase a square by reading the required book. (Example: Buy a Classic Literature square by reading Little Women by Louisa May Alcott) When you finish a book, roll your dice again! Count forward from the last square you finished. Go around the board as many times as it takes to complete as many bookopolies as you can! If you land on a square you've already completed, roll again!

Important Rules for both options: (PLEASE READ THIS!)

When you finish your book write the title under the correct bookopoly genre area on the back side of this paper. Each book you read can be used ONE TIME ONLY.

Prize points are only awarded for a completed Bookopoly (all books read under the same genre). If you do not collect the entire bookopoly then you do NOT collect your points. Prizes can be purchased with the completed bookopoly points awarded at the beginning of school. You must complete at least ONE bookopoly in order to be awarded a prize. More completed, and higher price bookopolies, means MORE prizes for you! Don't worry if you don't have dice at home, just choose a bookopoly you want to work on and go from there!

Chance, Community Chest, and Tax squares are not awarded prize points. These are free squares you can choose to participate in if you want. Reading Railroad and Utility squares are awarded points on an individual basis, but you MUST have at least ONE bookopoly finished in order to collect these prize points.

Your parent or guardian MUST sign and date the completed game board. Boards turned in without names on them will be thrown away!
